

Company Profile

www.canvasn.space.com

ABOUT US

canvasnspace Interior is a design firm dedicated to creating a perfect balance between aesthetic beauty and the practical needs of daily life. Led by designer Nazim Rana, the firm specializes in a wide range of interior projects, including contemporary residences, corporate offices, and institutional spaces. The design approach focuses on meticulous planning, from initial layouts to the selection of materials, furniture, and textures for every visible corner.

MISSION

Our mission is to create simple, functional, and high-quality interior designs tailored to each space—ranging from minimalist bedrooms to warm, family-focused living areas—by blending standard dimensions with modern design trends.

VISION

To set the benchmark for interior excellence in Bangladesh by blending scientific research with artistic luxury—creating data-driven, climate-responsive, and ergonomically precise interiors that balance timeless beauty with superior functionality.

WHY CHOOSE US

- *Meticulous Planning: We believe the layout is the foundation of design, ensuring every pattern is planned before execution to achieve a perfect balance.*
- *Research-Driven Design: Every project begins with an in-depth library study to ensure all spaces meet standard sizes and dimensions.*
- *Market & Regional Expertise: We conduct ongoing market surveys for the latest materials and perform regional studies to adapt designs to local climates and topographies.*
- *Advanced Visualization: We provide clients with high-quality 3D views and furniture layouts using industry-standard software like 3ds Max and V-ray.*
- *Technical Excellence: Our team frequently visits factories to stay in touch with the latest technicalities in product manufacturing, ensuring high-quality finishes for every project.*
- *Balanced Aesthetics: Whether it is the "minimal artistry" of a bedroom or the use of "hearty materials" in a family room, we find the happy medium between form and function..*

LIVING ROOM

At first, I plan the layout, as this step is essential for any design. However, for the living room, it is even more important. During the layout phase, I plan the entire design pattern and concept. Modern living room interior design focuses on every visible corner—from materials and furniture to décor, aesthetic textures, and more—ensuring a perfect balance between design and its contribution to your daily life.

FAMILY LIVING ROOM

Family living rooms, on the other hand, have a more casual character and should be designed with a relaxed mindset. The layout of a space often reflects its function and purpose, and a family living room is typically centered around the TV, with ample space for daily activities and gatherings. Rather than focusing on luxurious layers, these spaces benefit from hearty materials such as wood and steel, along with easy-to-clean performance fabrics—especially since they are used more frequently. When it comes to décor, the key is to strike a thoughtful balance between form and function.

BED ROOM

This type of bedroom offers minimal yet artistic arrangements, featuring soft colors and neutral wall tones paired with essential home items. Simplicity lies at the core of this design approach. Abstract or geometric shapes can be added to the walls to enhance visual interest, while furniture selections are kept minimal and economically planned to maintain balance and functionality.

3/Separate walk-in shower
and toilet cubicle
4/Luxurious toiletries

Moreover, the eleven duplex suites and 10 cabana rooms are a unique touch. They are all directly connected to the garden and very closely located to the private terraces and the swimming pools.

Before starting any project, a few essential steps must be completed. Market surveys play a major role, as they provide insight into new materials entering the interior design market every day. This includes surveys of colors, tiles, plywood, fixtures, and fittings available in Dhaka.

Next comes the regional study, which focuses on the location where the project will be executed. This study includes topographic and climatic analysis, as well as the availability of local materials. It offers valuable regional insights that help ensure the design is both practical and contextually appropriate.

MATERIAL DETAIL

Brand: kajria
Finish: Satin Matte
Pattern: Plain
Tile Type: Floor Tiles
Thickness: 1-5 mm
Size: 100 cm x 15 cm
Material: Wooden
Shape: Rectangle
Price: 65 RS SQFT

Wooden tile

Material: Ceramic Tiles, Ceramic
Price: US \$4-4.3 / Square Meter
(Min. Order) : 5000 Square Meters
Size: 300 x 300mm
Usage: Interior Floor, Interior Wall,
Color Family: Whites
Function: Acid-Resistant, Antibacterial
Tile Type: Wall Tiles.

Ceramic tile

China Nero black Margius Marble.
Stone Name: black margiua
Color: Black
Price: US \$25-30 / Square Meter
(Min. Order): 100 Square Meters
Surface Finishing: Polished
Stone Form: Big Slab
Marble Type: Calcite

Marble

Material: Porcelain glazed Tiles;
Colour: White, Black, Blue
Thickness: 5-10 mm
Number of Pieces per Case: 4
Size (In cm): (60 * 60).
Finish: more..
Price: Rs 85/ Square Feet.

Glazed tile

Stone Name: Natural Marble.
Color: Grey, Fancy color
Price: US \$29.19-34.81 / Square Meter
(Min. Order): 100 Square Meters
Stone Form: Big Slab
Marble Type: Calcite

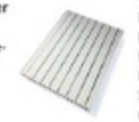

Marble

POP False Ceiling
Product Specification
Color: white
Material: POP
Usage/Application: Ceiling
Surface Treatment: Film Coated
Thickness: 10-30 mm
Price: Rs 110/Square Feet

POP

PVC ceiling panel;
Price: US \$1.12-3.26 / Square Meter
(Min. Order): 500 Square Meters
Function: Heat Insulation, Moisture-
Proof, Mould-Proof,
Smoke-Proof, Sound-Absorbing,
Soundproof, Waterproof
Ceiling Tile Type: PVC Ceilings
Feature: Integrated Ceilings
Ceiling Tile Shape: Rectangle.

PVC Panel

Sound absorbing material ceiling,
wall wood panels;
Price: US \$8-30 / Square Meter.
(Min. Order): 100 Square Meters .
Function: Fireproof, Heat
Insulation, Sound-Absorbing,
Soundproof, Waterproof.
Ceiling Tile Type: grooved wood
panel.
Feature: Artistic Ceilings.
Ceiling Tile Shape: Square.
Thickness: 12,15,18mm

Wooden panel

Surfa Galaxy Interior Paint
Product Specification
Brand: Surfa
Coverage: 95 to 100 Sft/litre/2 coats on putted,
Specific Gravity: 1.3 +/- 0.02g/cm³
Drying Time: Surface dry within 30 minutes
Area of Application: Ideal for Interiors of Homes,
Hospitals, Hotels, Schools and Offices
Recoating Interval: 4-6 hours.
Packings: 20ltr, 10ltr, 4ltr & 1ltr.
Resin Type: Acrylic
Properties: Solid content (% NVM) 58+/-2%
Method of Application: Brush/Roller or Spray
Finish: Smooth and soft sheen
Minimum Order Quantity: 1 Litre

Paint

Nerolac Pearls Lustre Finish WB
Product Specification
Packaging Size: 1 Litre, 4 Litre, 10 Litre, 20 Litre
Finish: Silky Sheen
Coverage: (Sq. feet/Litre) 140-160 sq ft/ltr/coat,
on smooth non absorbent surface
Drying time: (Minutes) Surface Dry: 30 minutes
Stability of thinned paint: Use within 24 hours
Dry Film Thickness: 30-50 microns/coat
VOC: Less than 50 gms/ltr
Price: Rs 272.5/Litre

Paint

Hollow grooving board Corrugated
Material: PP, Eco-friendly, PP (polypropylene).
Price: US \$1.5-2.5 / Kilogram
(Min. Order: 1000 Kilograms)
Size: Custom Size, As customerized
Thickness: 2-8mm
Color: Red Yellow Green White
Application: Printing, packaging,
protection,
Density: As customerized

Hollow grooving

IPE Wood Wall Brown Cladding
Color: Brown
Thickness: 20MM
Material: Wood
Condition: New
Usage: Interior and Exterior
Size: 3-6 ft
Price: Rs 290/Square Feet

Wooden cladding

Curtains
Product Specification
Material: Cotton
Pattern: Printed or Plain
Wash Care: Laundry friendly
Brand: As per order
Product code: LHP023
Features: Elegant patterns, Smooth finish,
Water and dust proof, Easy to clean
Usage/Application: Indoor/Outdoor furniture,
Curtains
PRICE: 100 RS M

Bed type: 1 Double or 2 Twin
 Max. guests: 3 people
 Size: 32 m²
 Views: Spree River

• Type equation here. The partly glassed roof of the reception area offers views of the underside of the upper tower floating above it. The 304 rooms and suites, are located on the 10 further floors of the hotel.

Types of room

- Nhow room
- Nhow room with river view
- Nhow premium room
- Nhow friends and family
- Nhow junior suite

Material

- Glass
- Wallpaper
- Lather
- Fiberglass

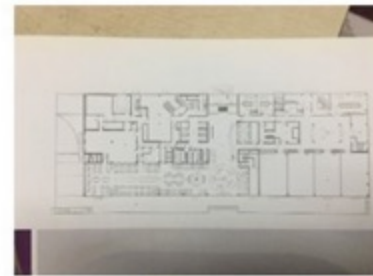

Cooler

- grey
- blue
- pink

COMFORT

- Baby crib possible
- Bathroom amenities set
- Cable TV
- Channels in other languages
- In-room selection of pillows
- Connecting room available
- Digital safe
- Free Wi-Fi
- Hairdryer
- High-speed Wi-Fi available
- International channels
- iPod docking station

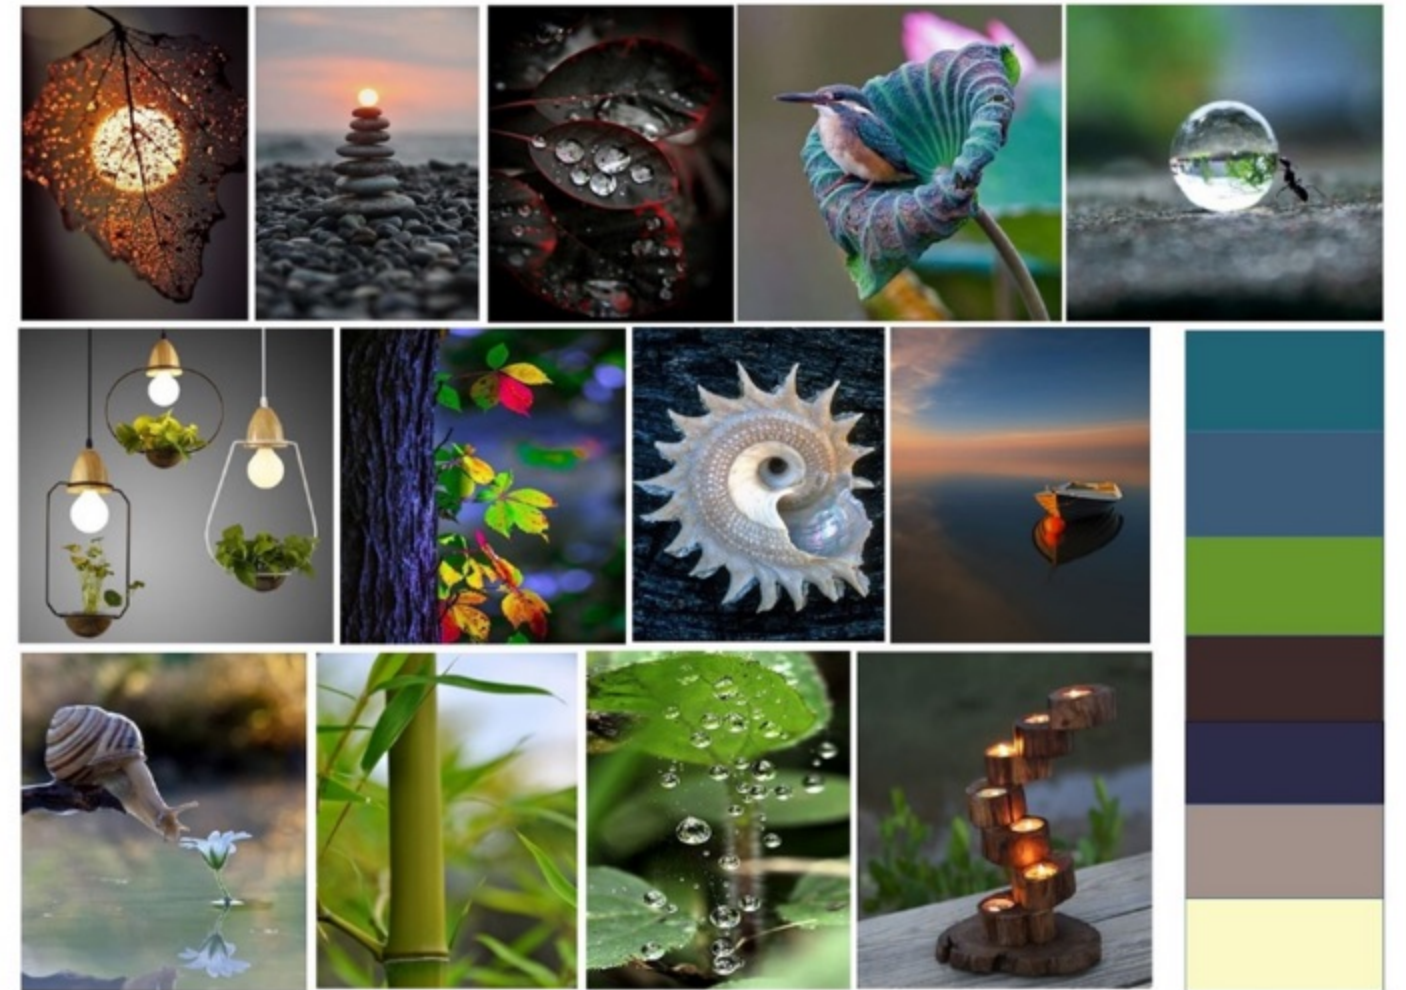

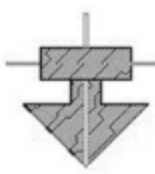

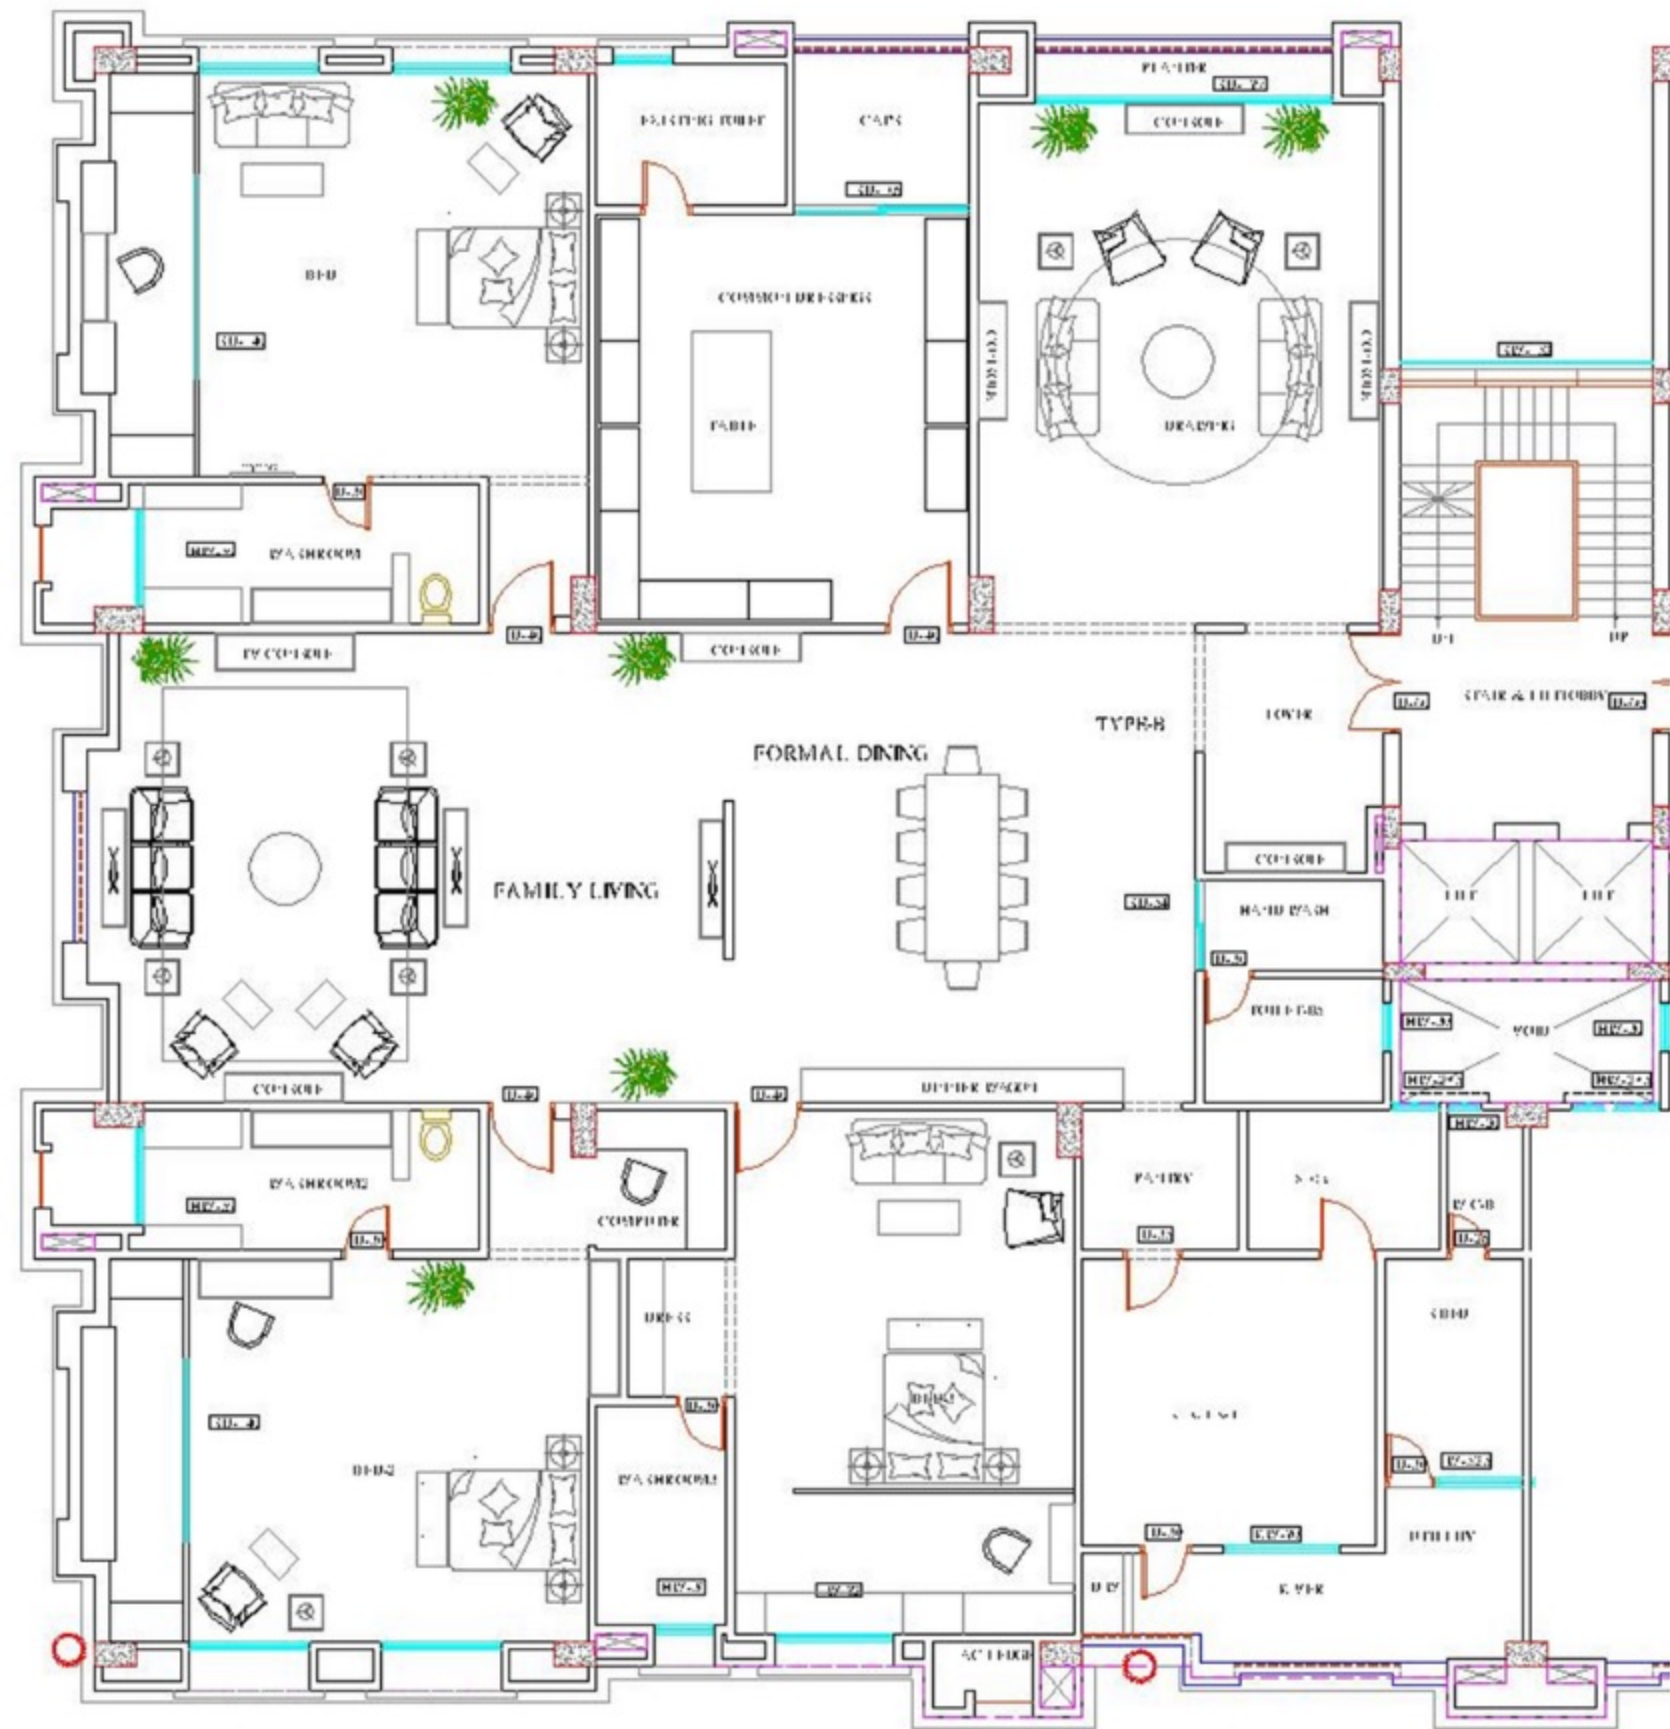

• The junior suites have rounded partitions with built-in lighting that separate the sleeping and living areas.
 • The built-in, rotating television can be positioned so that the guest always has the best possible view, whether from the bed, sofa or fiberglass desk

Factories that manufacture interior products must be visited frequently to stay updated on the technical processes involved in production. Additionally, mood boards are an essential part of the design process, as they help clearly define the theme and color scheme of the project.

SITE ANALYSIS

The climate of Bangladesh is tropical, with a pleasantly warm and sunny winter from November to February, a short hot spring between March and May, and a long rainy season from June to October, due to the summer monsoon. The country is flat and occupied by the huge Ganges-Brahmaputra Delta, and is therefore exposed to floods, as well as to storm surges when cyclones hit the Bay of Bengal.

The dry season runs from November to March. The monsoon has left the country during the month of October, but sometimes the rains can last until November, especially in the south-east, or when a cyclone arrives. In general, however, November is hot, but not too much, with highs around 30 °C (86 °F), and sunny. The winter proper begins in December, and is characterized by warm and sunny days, followed by cool nights. In the far north, in cities like Saidpur and Rangpur, in January, the coldest month, lows are around 11 °C (52 °F), and highs around 23 °C (73 °F).

 the sleeping and living areas.
 •The built-in, rotating
 television can be positioned
 so that the guest always has
 the best possible view,
 whether from the bed, sofa
 or fiberglass desk

Type of bed: 1 King or 2 Twin
 Max. guests: 3 people
 Size: 55 m²
 Views: Spree River

• Type equation here. The
 partly glassed roof of the
 reception area offers views of
 the underside of the upper
 tower floating above it. The
 304 rooms and suites, are
 located on the 10 further
 floors of the hotel.
